FIFTY YEARS AGO

In August, 1877, a farmer near Syracuse, N. Y., watched his wife wash a blanket. He saw what hard work it was. So he fashished a crude funnel-on-a-stick to souse the heavy fabric up and down. This implement did the job more efficiently. The fame of the farmer's inven-

tion grew, and soon a small work-shop was set up to supply neighbors. Next the inventor developed a de-wise whereby you could attach the funnel to any washtub and work it up and gloves by a sort of pump handle. This apparatus was still further improved. Then in 1899, a complete tub and stand was made, with the funnel a built in part of the whole. This was the first actual vacuum cup washing machine. It was called Model A, and of course was operated by hand. It was soon followed by Model B, which had two furnels, or vacuum cups, instead of one. Then came the first Easy

Behind the scenes at the Ziegfeld Theatre Gladys Glad is remarking to Flo Kennedy between acts of the Follies.

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked. made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process-"It's toasted"-no harshness, not a bit of bite.

It's toasted'

No Throat Irritation - No Cough.

Florenz Ziegfeld, famous theatrical producer, writes:

"As the producer of 'The Ziegfeld Follies' I know full well how important it is for my stars to have clear voices at all times. Several years ago, when I first began to smoke Lucky Strikes, I noticed that my voice remained unirritated after a most strenuous time directing rehearsals. I passed this information on to my stars and now we are all agreeds Lucky Strike is a delightful smoke and most assuredly protects the voice, eliminating any coughing, which often interrupts a perfect performance."

#### Accidents Will Happen

Well here it is the first day of August and thus we will soon know if Herbert Janoria Browne the Washington gentleman who predicted that the present would be a summerles year has been able to save anything from th reck of the prophecy made he him list fall it may be remembered that Mr. Browne was content to prodict that 1977 would be a summerless your and let it go at that Westber prophets without are. They almost invariably add a series of flourishes and sen erally incorporate a loophule out of which to tale care the loophole was a volcasic emption Mr Broane held out that his proplace hinger on a severe volcanic eruption before the first of the Present year. Well it so happened that were two severe erupto as in Russia early in December and one of a mountain in Pehring sea. Thus Mr Brownes avenue of was plugged up and he had to deliver

e goods or stand as a false prophet.
Among other eccentricities predicted by Broade last fall in his summeriess prognes ication were a general aconstarm about the middle of June a kitilug frost on the night of 4 and another killing frost early this mouth. This is who we have stated this with ing a few days we will know whethe he has been able to wive anything out of the wrecking

It looks a bit as though Ur Browne is a lit of methin habet about derivering his little for for live in habet about derivering his little for for live in shore about derivering his late for for recently be issued another or sur, lence any prediction possible to defract at e from from that that of last fall. The substance of a is that there will be abnormal heat in mid summer but that throughout the a cater part of the published States and Canada the sear will no down as exceptionalis dry and celd. He predicts an early winter pre-cicl by killing frosis a number of stolent Was Indian has ricanes cloud'inters half a wine floods and about everything elso in the weather line which may be an supplied ordinarily in the latesummer and eath (all

If Mr Browne keeps on po shorting like " this her liable to hit something off in time He cant fire sway like this forever without semething bobbing into the cause of he prophetic broadends. But locking his k some thing like four decades w cant retail an in stance where one of these long range weather prophets ever made a hall cese. Sill as we have stated come one of them not it given sufficient time Accidents will happen

At New York he engaged in the construction and real estate business. Bloom served is the sixty sighth and sixty night congresses from New York City and was reselected to the sevenists in the fall of 1928. During the World war he was a captain in the New York reserves.

Bloom is an earnest advocate of the sholtton of the two thirds rule in Democratic mational conventions. He said recently what of the two thirds rule in our Democratic national conventions. We lority rule with no majority of tess than two thirds counting us a majority is not meajority rule with no majority of tess than two thirds counting us a majority is not meajority rule at all There is no logic in a two thirds rule.

> WN ONE HOUR you can do your entire washing with a Maytag. Think what that means in added hours of leisure for you! Washday no longer is a day of toil. It becomes another day for pleasure.

MAYTAG

Such washing efficiency as the Maytag gives you is the result of in-built quality. The Maytag CAST aluminum tub lasts a lifetime. It is satin smooth and easy on clothes. It holds more clothes than ordinary washers. It drains and cleans itself in 30 seconds when the washing is done. Adjustable legs raise or lower it to your height.

Washing with a Maytag means NO hand-rubbing! It meens no hand-wringing. It means short, sasy washdays and cleaner washed clothes. Try a Maytag next washday and learn how easy it is to make washday another day for
